Complete Bank Service Shows You How to Have a Cash Reserve

EEP every penny earning" is a true but much abused phrase. Money can earn many valuable things besides interest. Using money to build your credit may often earn more profit than any other sound financial investment. Keeping a substantial cash reserve on hand

frequently permits the taking of profits offered by quick-fire business opportunities. Usually these require "cash on the nail" with little or no time to convert securities. These chances for gain are more common just when other investments are difficult to liquidate.

Most men who have accumulated large fortunes, make it a practice in their personal and business finance to keep an adequate cash reserve for such opportunities.

Not the least advantage of surplus funds in your checking account, comes from the strength it adds to personal morale. A cash reserve brings a satisfaction, a feeling of familiarity with success, a confident physical bearing which have a definite money value to the user—for they give him a broader view point and show him an ever widening field for profitable activity.

Building up and keeping such a surplus immediately available is simple in principle, and not as hard to do as most people suppose. With the many demands on personal and business income, perhaps you think, "How can I keep a larger balance in mychecking account? How shall I determine what the amount is to be?"

In most cases there is a way to build up a reasonable reserve of ready cash and without unpleasant skimping and scraping. Every day, your banker is in contact with hundreds of cases. Often, some simple adjustment opens the way to a new plan of personal finance, with greater freedom, more comfort and less irksome detail.

Your banker has helped many others find the way. In many instances the plan has proved to be the turning point to greater success. Use your banker more. Get acquainted with him and let him pass on to you the methods successfully used by others with financial problems just like yours.

"Cutting corners too fine," is a common stumbling block in the way of greater profits. A cash reserve is one solution and your banker will gladly cooperate with you in building it up. Talk with him today.

You Can Pay Higher Prices Without Improving Upon Richman Quality

GTHE price you are asked to pay for some clothes covers many items—that add nothing to the quality of materials and workmanship. In our business, as in any other, volume counts. Richman's Clothes, with the world's largest direct from factory sales, not only save you the usual middlessales, not only save you the usual middlessales. man's profit, but give you quality features ordinarily found only in costly clothes

—pure wool fabrics of the quality more often priced at \$50 than less, bought in great quantities at lowest prices for cash

-style as smartly authentic as any price

—tailoring you may depend upon to hold the style and shape, and give you surprisingly long wear, tailoring such as you may expect only of workers who feel their responsibility for your satisfaction because they own a \$6,000,000.00 interest

Made in the Richman Factories and Sold Direct to You at One Price-\$22.50 for any suit, topcoat, tuxedo suit, or overcoat you choose.

TEW suits and topcoats in the season's smartest styles and fabrics; the newest shades and mixtures, the most complete range of sizes and proportions. Any man will readily find here just what he likes, for we show a greater variety at one price than most stores offer at all prices combined.

half hour's work

Actually that's all it takes "to do over" a chair with Devoe Lucquer! And its so easy you'll want to keep right on and do a lot of other things as well.

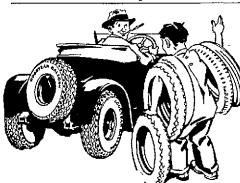

For Devoe Lacquer is different from any other lacquer you can use. Not only dries in 30 minutes-but easier to put on. So durable you can actually paint the floor with it!

What's more, Devoe Lacquer can be used on any surface-wood, metal, even glass! Comes in beautiful new colors you can get in no other lacquer. Ask us for a color card. .
